# ***APPENDIX***

## ***Idea restyling model range UI***

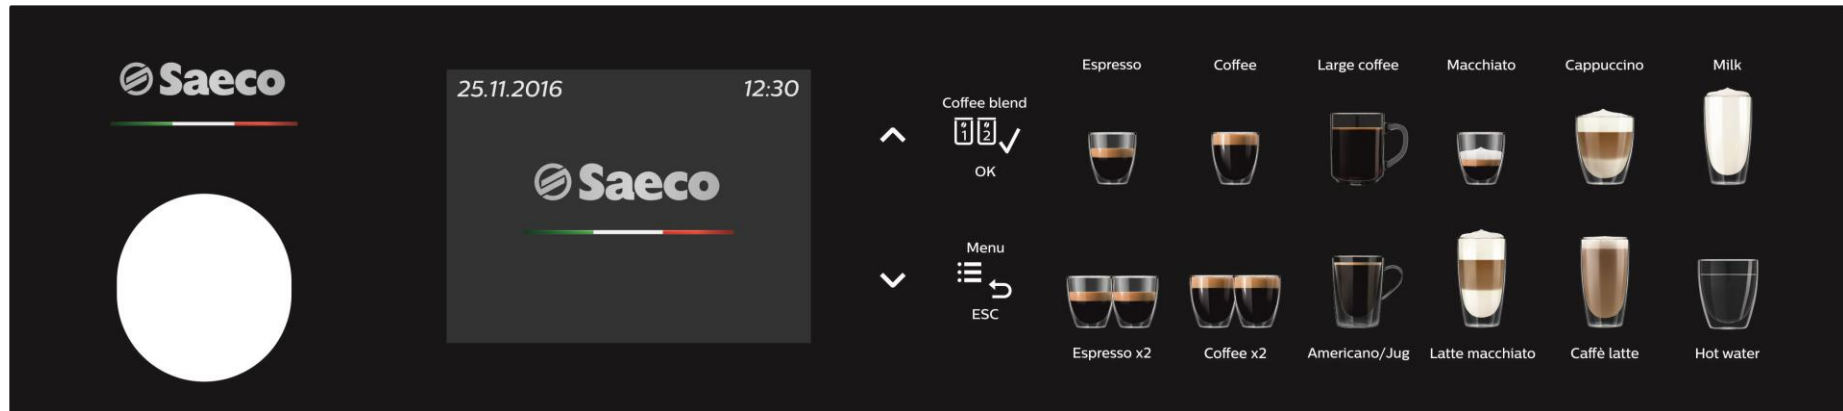

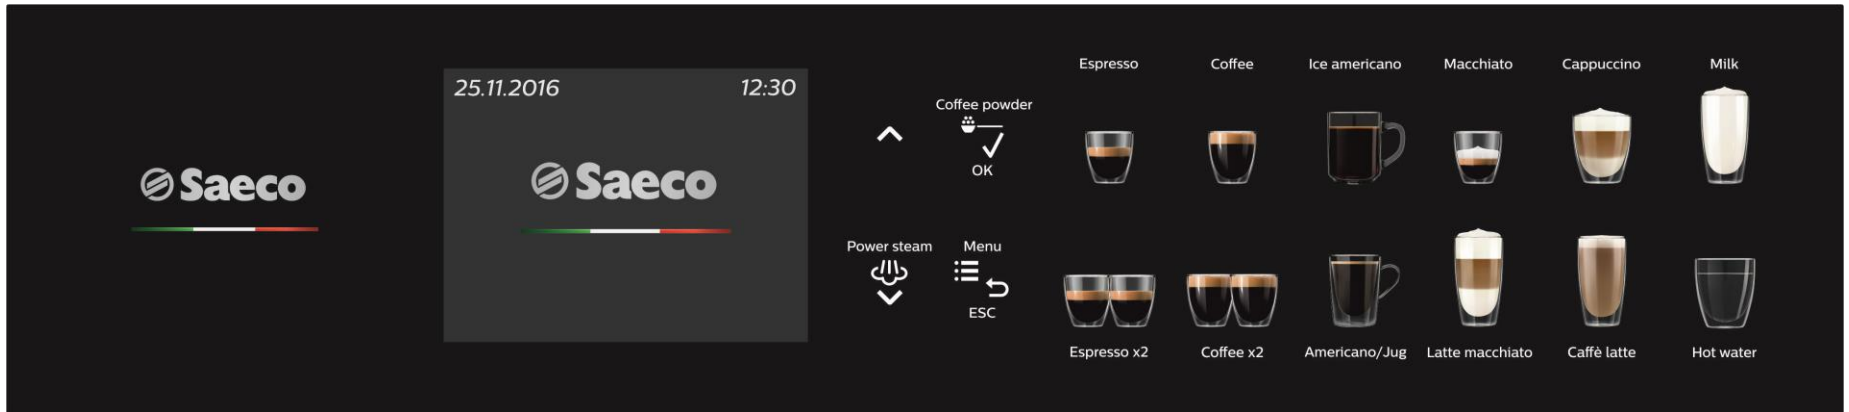

Please note that the switch to choose the bean container is now replaced with a dedicated touch icon

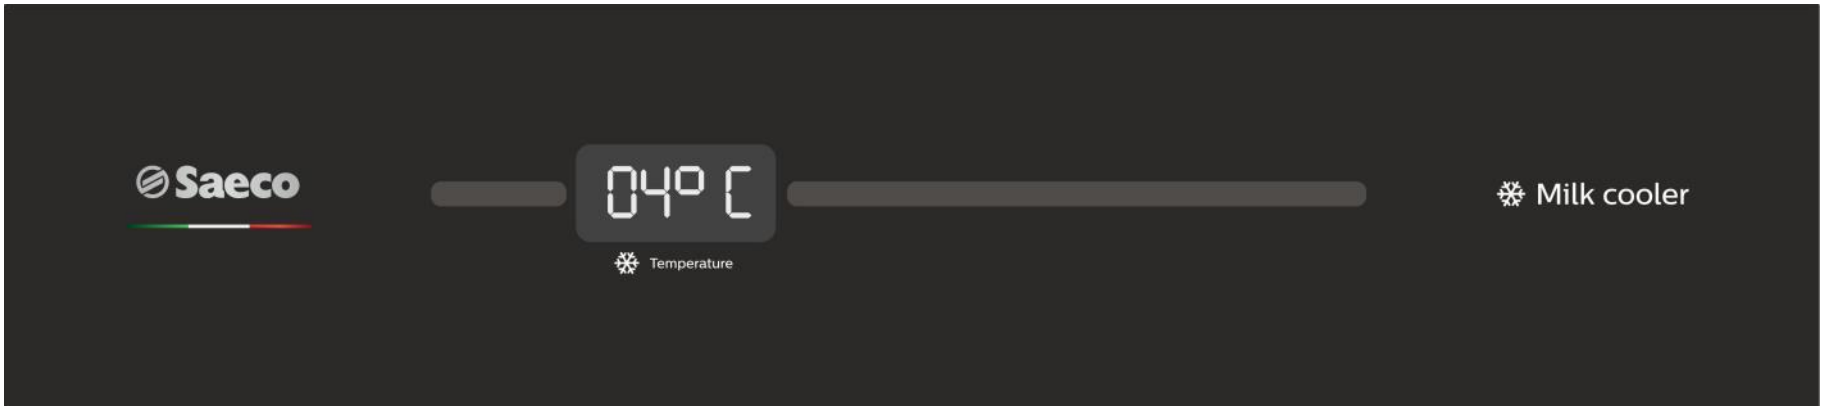

*Restyled*  
***CUP WARMER and FRIDGE***  
*Modules*

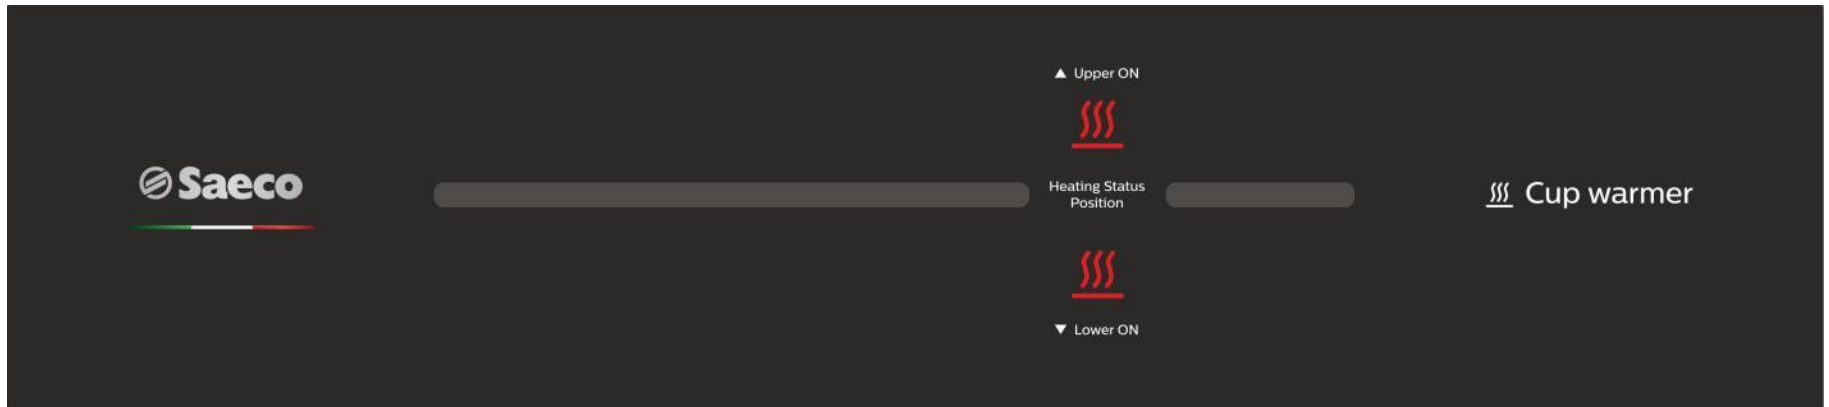

Please note that the modules will be sold «Plug & Play» with their own colored sides and logo. This means that you can simply place them side by side.

## Milk cooler module: new User Interface Panel

## Cup Warmer module: new User Interface Panel

Please note that the icons in red will be backlighted when you will activate the relative cup warmer level by mechanical switches, placed under the main switch (on the left front side of the machine).
