Vivace

Snack & Food

NECTA

Design and user interface

- Essential design easy to fit in any location.
- Capacitive keyboard and TFT display 4,3" capable to feature spot, adv and nutritional facts.
- LED lighting of the white cell for enhanced visibility of the displayed products (+ 35% luminosity).

Maximum flexibility

- Up to 6 trays which can be easily moved thanks to Vertical Flex (V-Flex) system.
- The space inside the cell is optimized; the enhanced distance between trays and glass window allows the dispensing of products with non standard packaging, such as salads and ready to go meals
- Delivery bin with wider opening
- Enhanced ETL trays.

High energy efficiency

- C class according to EN 50597 scale.
- Perfect insulation of the cabinet.
- Cooling unit with R290 gas.
- High energy efficieny and dramatic decrease of pull down time.
- Vivace can manage up to three temperatures inside the cell or can be set with a 100% Food or Ambient layouts.

Electronics

- Vivace is compatible with Newis solutions.
- With Breasy it is possible to select and pay for your product in a completely touchless mode (with Hi! Platinum Executive)
